### *Aims and scope*

*The South-Western Journal of Horticulture, Biology & Environment publishes papers in the broad field of horticulture, biology, and environmental sciences. It was founded in 2010 by a group of Romanian researchers that recognized the necessity to create a new peer-reviewed scientific journal in Romania. They also recognized the need to allow researchers to publish their research quickly and in a visible way. The SWJHBE is published twice a year (in July and December). The manuscripts submitted in SWJHBE should be primary research papers, reviews, and opinion papers. Original research papers are welcomed both as full-length papers and short notes. Review papers should deal with topics of current interest, presented in a synthetic way.*

Prof. Dr. Sina COSMULESCU  
Editor in Chief
